DAY ONE – MEET YOUR SWEDISH COLLEAGUES, 29/11

Meet and get to know architects and engineers working at Kjellgren Kaminsky Architecture. Learn about the Swedish branch from colleagues and representatives from Arbetsförmedlingen, The Swedish Association of Architects and The Swedish Association of Graduate Engineers.

Topics for the conversation are:

- A day at the office - How a Swedish architecture or engineering office is working; its organization, normal working tasks, meetings, software and clients.
- Working in Sweden - What working conditions you can expect, what help Arbetsförmedlingen, The Swedish Association of Architects and The Swedish Association of Graduate Engineers can offer, which kind of workplaces there are for engineers and architects and how to apply for work.
- Building in Sweden - Tips about study visits in the near surroundings, how different types of buildings are normally constructed in Sweden and how the team in the building process is normally formed.

DAY TWO – MINGLE WITH OUR NETWORK, 6/12

Kjellgren Kaminsky Architecture will invite our network of possible employers for a meet & greet mingle.

NU SPRIDER SIG KONCEPTET!

Träffar arrangeras även i Stockholm och Malmö
i samarbete med Krook & Tjäder Arkitekter
